

Financial Literacy

Cent\$ible Students offers 2 hour, interactive workshops to introduce financial concepts at grade appropriate levels. Our workshops meet Ontario math curriculum requirements and engage students through a variety of cross-curricular methods.

Teacher Talk:

"It was an excellent workshop! The students were engaged and the morning flew by! Students learned the importance of understanding money, where you spend your money and how easy it is to get out of control." - Teacher, Valley Park M.S.

"Different learning modalities were covered to reach all types of learners. The activities were suited to our virtue for the month of compassion and the presentation fit nicely with the number sense and numeration strand covered in class." - Teacher, St. Edward C.S

Cent\$ible Students provides the class with engaging activities and post session resources for the teacher.
